

Chet Marino
President

For close to 30 years, Chet has helped companies achieve their business goals through thoughtful, strategic advice. His guiding principle is that investing in people can move a good company to greatness and provide the best possible returns. This investment begins by ensuring that there is true internal alignment in the organization, and that continuity and excellence have been cultivated throughout. Chet helps clients understand their current environment and follows with insights and tools that accelerate the performance of leaders, teams, and the overall business.

Chet works primarily with middle-market companies in three main areas: executive coaching, team effectiveness, and business advisory. He quickly gains a keen understanding of the challenges clients face. This allows him to serve as a close advisor who works collaboratively to develop solutions that match company needs and support culture. Chet helps ensure the continuous health and sustainability of client companies through initial business

review, strategic planning, problem solving, change management, assessments—and by working with CEOs and boards to craft succession plans and implement them long before they are needed.

Chet is a member and former director of the Association for Corporate Growth (ACG), Denver chapter, which serves professionals involved in corporate growth, development, and mergers and acquisitions. He is a member of the Alliance of Merger & Acquisition Advisors (AM&AA) and has achieved certification as a National Association of Corporate Directors (NACD) Governance Fellow. He is a Board Certified Coach (BCC), a certification developed by the Center for Credentialing & Education (CCE), and an affiliate member with the Institute of Coaching (IOC). He is also an Accredited Mindshop Facilitator.

Chet Marino earned a bachelor of science degree in management science from Nazareth College and a master of business administration from Regis University.
